03 - 05 May 2021

Join WASCAL's online free trainings to celebrate International Open Data Day 2021

As part of its contribution to the 2021 International Open Data Day, WASCAL through its Competence Centre -member of the Copernicus Academy - in close collaboration with the Capacity Building Programme, is organizing a 3-day hybrid (i.e., physical and virtual) training sessions from 3rd to 5th May 2021 on satellite-based open data collection and processing on Google Earth Engine, climate data analysis, and access to WASCAL Data Infrastructure's Repositories and Portals (WADI REP). The training

will build capacities of scientists, students, technicians, and mid-level employees of organizations within and outside West Africa.

Certificates will be issued to all participants who will successfully complete the training.

If you would want to take advantage of this unique opportunity to extend your skills to cloud-based processing, climate data analysis and data management techniques, please register [here](https://forms.office.com/r/mt0jqdS743) (<https://forms.office.com/r/mt0jqdS743>).

Kindly note that physical participation is reserved for a limited number of participants in Burkina Faso.

For further details, please contact hackman.k@wascal.org, or belemsobgo.m@wascal.org.
